EXPERIENCE

CoStar Group, Arlington, Virginia

Associate Software Engineer — *July 2026 - Present*

- Build AI-focused, full-stack features for CoStar products on a shared services team.
- Develop with .NET and TypeScript, and support DevOps and AWS infrastructure for the team's services.

Technology Intern — *June 2025 - August 2025*

- Contributed to CoStar's first infrastructure based generative AI framework to scale content creation across products.
- Built and deployed TypeScript and AWS-based systems to improve workflow speed, accuracy, and cost along with necessary documentation to use/maintain the system.

University of Delaware, Newark, Delaware

Teaching Assistant — *August 2025 - December 2025*

- Supported a class of 40 students in learning full-stack web development concepts including React, Node.js, and REST API's through weekly office hours and real-time help via Discord and email.
- Graded web application projects, identifying performance and security issues via actionable feedback.

Lab Assistant — *March 2023 - May 2026*

- Assisted users, managed machine queues, led training, and maintained fabrication equipment.
- Managed three senior design teams in an agile environment to develop a full-stack dashboard for real-time tracking of space usage and finances.

Resident Assistant — *August 2023 - May 2025*

- Oversaw communities of 60 residents in apartment-style housing and 20 residents in dorm-style housing.
- Built community through events, and supported residents' academic and personal success.

ActionQuest, British Virgin Islands

Scuba Instructor — *Summer 2024*

- Taught diving and safety to students ages 12-18 through PADI's hands-on lessons and in-water training.
- Promoted teamwork, inclusion, and safety to promote a safe and positive learning environment.

Fairfax County Public Schools, Fairfax, Virginia

Event Service Technician — *August 2022 - August 2025*

- Provided technical support for live events including school board and superintendent meetings.
- Built and operated audio, lighting, and streaming systems to ensure professional and reliable events.
